Certificate of Achievement for Excellence in Financial Reporting

Presented to

Huron-Clinton

Metropolitan Authority

Michigan

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
December 31, 2005

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

HURON – CLINTON METROPOLITAN AUTHORITY

COMMISSIONERS
WILLIAM E. KREGER, Chairman
JOHN C. HERTEL, Vice Chairman
HARRY E. LESTER, Treasurer

JOHN E. LESTER, Treasurer JOHN E. LA BELLE ROBERT W. MARANS ANTHONY V. MARROCCO PETER S. WALTERS

April 27, 2007

To the Board of Commissioners, Director and Citizens of the Huron-Clinton Metropolitan Authority Park District:

State law requires that all local governmental units, including authorities such as the Huron-Clinton Metropolitan Authority, publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Huron-Clinton Metropolitan Authority for the fiscal year ended December 31, 2006. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with management.

The comprehensive annual financial report is presented in three sections: introductory, financial and statistical. The introductory section, which is unaudited, includes the letter of transmittal, an organizational chart and a list of the Huron-Clinton Metropolitan Authority's principal appointed officials. The financial section includes the financial statements and schedules, as well as the independent auditor's report on these financial statements and schedules. The Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it. The statistical section, which is unaudited, includes selected financial information, generally presented on a multi-year basis.

The financial reporting entity of the Huron-Clinton Metropolitan Authority includes all funds of the Huron-Clinton Metropolitan Authority. The Authority is a special district form of government operating independently of all other governmental agencies. It provides a full range of recreational activities in the five-county region surrounding metro Detroit.

GOVERNMENTAL STRUCTURE, LOCAL ECONOMIC CONDITION AND OUTLOOK

The Huron-Clinton Metropolitan Authority was sanctioned by Public Act 147 of Public Acts 1939. This Act provided for the incorporation of the Huron-Clinton Metropolitan Authority to permit the counties of Livingston, Macomb, Oakland, Washtenaw and Wayne to join in a metropolitan district for planning, promoting and/or acquiring, constructing, owning, developing, maintaining and operating, either within or without their limits, parks, connecting drives and/or limited access

highways; and to provide for the assessment, levy and collection of property taxes on both real and personal properties located within its boundaries. A referendum was held on November 5, 1940 on the proposed Huron-Clinton Metropolitan Authority. The citizens of the five-county district approved the creation of the Huron-Clinton Metropolitan Authority.

The governing body of the Huron-Clinton Metropolitan Authority is a seven member Board of Commissioners. Two Commissioners, who serve as representatives at large, are appointed by the Governor of Michigan and serve four-year terms. Each of the five member counties, through their respective Board of Commissioners, appoints a Commissioner to serve a six-year staggered term. Public meetings of the Board of Commissioners are held on the second Thursday of each month. The Board of Commissioners is responsible, among other things, for setting policy, adopting the budget, setting fees, approving contracts, land acquisition and expenditures, planning of new parks and facilities and appointing four staff officers – Director, Deputy Director, Secretary and Controller.

The Director is responsible for carrying out the policies of the Board of Commissioners, for overseeing the day-to-day operations of the park system, hiring all full time employees and approving all purchase commitments of the Authority. The Deputy Director oversees all park operations/activities. The Secretary keeps minutes of all Board of Commissioner meetings, is the official custodian of all records of the Authority, coordinates the recording of all property owned by the Authority and certifies all payment vouchers prior to approval by the Board of Commissioners. The Controller is responsible for maintaining all financial accounting records of the Authority, collecting all revenues due the Authority, investing all Authority funds, issuing payment vouchers for goods, services and payrolls, maintaining property/casualty insurances and serves as the Pension Plan Trustee.

Named after the two longest rivers within its boundaries, the Authority's main endeavor is to provide a variety of recreational opportunities through the development of natural resources along the Huron and Clinton Rivers for the benefit of the 4.5 million citizens of the five-county park district located in southeastern Michigan. Since its inception, the Authority has created thirteen Metroparks covering over 24,000 acres within the 1,600 square mile watershed area of the Huron and Clinton Rivers. These Metroparks have been developed on the best natural resources available, considering population trends and changing needs within the district with a minimum disruption of existing land use. The Authority is a dynamic and changing organization striving to provide new facilities and better service, but the basic philosophy of utilizing the best natural resource areas possible to provide a broad range of regional outdoor activities has not changed. This was the widely understood reason and purpose of establishing the organization and has been carefully followed by its Board of Commissioners throughout its history.

The characteristics of the Metroparks are different from recreation supplied by most other units of government or by the private sector. Generally, Metroparks are fairly large in size and offer a blend of natural resources such as lake, river, woods or wildlife area with constructed facilities that provide for more intensive recreational pursuits such as swimming, golfing, bicycling, cross-country skiing or other outdoor recreation. These Metroparks are within an hour's drive for most of the residents of the region and are considered "day use" parks.

The Metroparks range in size from 53 acres at Delhi Metropark to over 4,400 acres at Stony Creek Metropark. The larger Metroparks are designed to accommodate crowds of 35,000 or more on peak use days. In fiscal year 2006, the Metropark system provided recreation for over 8.7 million park visitors.

The Authority's centralized Administrative Office coordinates the development and operation of all thirteen Metroparks. The following departments are housed at the Administrative Office: (1) Executive; (2) Controllers; (3) Engineering; (4) Planning; (5) Human Resources; (6) Graphic Arts; (7) Information; (8) Purchasing; (9) Computer Services; (10) Development/Community Relations; (11) Police; and (12) Interpretive Services.

The day-to-day administration, operation and maintenance of each Metropark is coordinated through six park offices. These offices oversee all on-site park activities, operations and maintenance of buildings, roads and grounds.

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment in which the Huron-Clinton Metropolitan Authority operates. To say that the state of Michigan and, in particular, southeast Michigan's economy has fallen on hard times would be an understatement. The unprecedented restructuring of the domestic auto industry and related segments has put Michigan's state government in a financial crisis. Michigan remains more dependent on the auto and auto part manufacturing than any other state in the nation. Fierce global competition of this state's leading industry has caused the domestic auto makers to loose significant market share in the last 13 years, declining from 74% to 52%. Michigan has lost jobs for eight straight years, with nearly 49,000 jobs lost in 2006 alone. Overall, Michigan has lost 218,000 high-paying manufacturing jobs since 2000. No other state in the nation has experienced this. Unfortunately, this trend is expected to continue as auto makers continue to "right size" production facilities. Michigan has the nation's highest unemployment rate at over 7%. The impact of corporate downsizing, restructuring, bankruptcies and layoffs/retirement incentives are reverberating through all segments of southeast Michigan's economy. This slumping economy has lead to (1) falling home values, (2) a dramatic increase in home foreclosures, (3) a 50% decline in new housing permits in 2006, and (4) a decline of nearly 10,000 residents in the Authority's five-county region. The pattern of population change in southeast Michigan continues to show that the city of Detroit and its mature suburbs have lost population, while outlying communities have continued to experience growth due to urban sprawl. However, this shift is taking place at a much slower pace than in the past.

The effect of this reeling economy will eventually translate into a slower growth of Authority property tax revenues. To date, the Authority is still experiencing a growth in tax revenues due to Proposal A, which permits the growth of taxable values equal to the rate of inflation. Assessed values on existing properties have not fallen below taxable values, which translates into some additional growth of Authority tax revenues.

Given all these variables in our region, it is felt that southeast Michigan will remain a busy recreational playground due to the economy, natural features and water resources. The Metropark system will continue to play an important role in providing recreational opportunities

for our residents and enhancing the overall quality of life. It is expected that residents will seek quality recreational opportunities closer to home at their 13 Metroparks.

A recent report by the Southeast Michigan Council of Governments (SEMCOG), the regional planning agency, indicates that there will be a major shift in the age mix of the population served by the Metropark system. It is predicted that over one-third of the population in southeast Michigan will be over 55 by year 2030. Current 2006 United States Census Bureau estimates are that the five-county population dropped to 4,548,000 residents. The Authority hopes to serve more of these residents as they age.

MAJOR INITIATIVES

The Authority's staff, following directions from the Board of Commissioners and the Authority's Director, has been involved in a variety of capital projects throughout the year. These projects reflect the Authority's ongoing commitment to providing quality public recreational facilities and services in a well-maintained and safe environment to the citizens of southeast Michigan. Many of these projects relate to the Authority's emphasis on replacing worn out, outdated recreation facilities. The major activities and accomplishments during 2006 included:

- 1. The single largest individual construction project in the history of the Authority was let in July 2006. This \$8.8 million project will construct a Family Aquatic Center at Lower Huron Metropark. This center will be known as "Turtle Cove." It will consist of (1) an activity pool, (2) a lazy river, (3) two water slides, (4) a splash pad, (5) bathhouse, (6) concessions/administration building, (7) mechanical building, (8) parking lot, and (9) plaza/deck. The construction of this project started in earnest in 2006 with \$2,236,000 expended. Completion of this project is scheduled for summer of 2008.
- 2. The Authority recognized the net value of assets totaling \$1,320,000 transferred from Stony Creek Golf Course, Inc. The Stony Creek Metropark Golf Course was developed and operated by a concessionaire since 1976. The long-term lease expired November 30, 2006, with all assets golf starter building, golf maintenance building, golf car building, golf pump house and 18-hole golf course reverting to the Authority.
- 3. The construction of a new Aquatic Play Area at Kensington Metropark's Martindale Beach continued in 2006, with \$1,165,000 expended. This Aquatic Play Area will feature 40 water spray features, two water slides with surrounding plaza and walks. Cumulative construction costs total \$2.6 million, with completion expected by summer of 2007.
- 4. At Stony Creek Metropark, the complete reconstruction of the bridge decks at the North and South Dam bridges was completed at a 2006 cost of \$1,078,000. This reconstruction included the approach roadways, bike trails, bridge railings and safety barriers.
- 5. The original Nature Center at Stony Creek Metropark is being replaced with a new 6,100 square foot, \$1.7 million Nature Center that will feature expanded exhibit space, classrooms and restrooms. This project started mid-year 2005, with 2006 expenditures totaling \$1,028,000.

- 6. The replacement of the Food Concession Building at Kensington Metropark's Farm Center continued in 2006, with another \$459,000 expended. The new Food Concession Building will be a 2,100 square foot building with a completion date of summer 2007.
- 7. The Authority's hike/bike trails, roadways and service areas were upgraded with paving and reconstruction projects at five parks for a cost of \$1,120,000.
- 8. Improvements to the Wolcott Mill Metropark Golf Course continued, with \$96,000 of new asphalt golf car paths and \$150,000 for a driving range.
- 9. At Indian Springs Metropark, work continued on the Environmental Discovery Center, the Adventure Play Area and the Environmental Study Area, where another \$296,000 of capital funds were expended.
- 10. The Authority remains committed to replacing trees lost to the emerald ash borer by expending \$141,000 on replacement trees throughout the park system.
- 11. It was a light year for land acquisitions, where only one purchase took place, adding five acres with house at Indian Springs Metropark at a cost of \$214,000.
- 12. During 2006, a total of \$2.5 million was spent equipping the Metropark system. Heavy equipment purchases accounted for \$1.7 million of expenditures, while auto and truck acquisitions held steady at \$0.5 million.
- 13. Under the Authority's Capital Projects Fund–Supplemental Major Maintenance, a major \$2.3 million project was started to completely replace the water distribution system at Lower Huron Metropark. This project will replace water mains, pump stations, meters and hydrants throughout Lower Huron Metropark. In addition, various sections of the sanitary sewer system will be replaced. This project is essential to provide adequate water supply to the new Family Aquatic Center being constructed to replace the 50-year-old Lower Huron pool. During 2006, \$1,329,000 was expended on this project. Related to this project was the expenditure of \$146,000 in engineering costs for the design of the replacement of the Lower Huron water distribution system.
- 14. Major repairs to Authority buildings, roadways, hike/bike trails, fuel dispensing systems, well and electrical systems ran \$693,000 during 2006.
- 15. The Authority established the Retiree Health Care Plan and Trust effective October 1, 2005. This Plan and Trust was created under the authority of the Public Employee Health Care Fund Investment Act, Public Act 149 of 1999 and constitutes a governmental trust pursuant to Section 115 of the Internal Revenue Code of 1986. The Plan operates on a September 30th fiscal year end and completed its first year of existence on September 30, 2006. To start the funding of Authority retiree health care costs, the Authority transferred \$4,490,300 during the Plan year ended September 30, 2006. The Plan and Trust was established for the

exclusive purpose of enabling the Authority to fund retiree health care benefits for eligible retirees and spouses.

16. Finally, and not least, the direct operation and maintenance of the Authority's 13 Metroparks were funded at a level of service that continued to offer the public quality recreational experiences in well-maintained and safe environments. A total of \$29.6 million was expended on providing park maintenance and recreational services to 8.7 million park visitors in 2006.

FINANCIAL INFORMATION

Management of the Authority is responsible for establishing and maintaining internal controls designed to ensure that the assets of the Authority are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

FEDERAL FINANCIAL ASSISTANCE

The Authority did not receive any Federal financial assistance during 2006 that required the independent auditor to issue a Single Audit Report.

BUDGET

The annual budget serves as the foundation for the Huron-Clinton Metropolitan Authority's financial planning and control. The budget process is multi-faceted, involving all units of the Authority. The Authority's Planning and Engineering Department, in conjunction with park operating units, develops capital improvement and major maintenance project listings that are costed out by the end of September. These project listings are reviewed and finalized by mid-October. After a complete inspection of Authority equipment during September, the equipment budget is developed. Equipment budget requests are reviewed and finalized by the end of October. All park operating units of the Huron-Clinton Metropolitan Authority are required to submit park operation budget requests to the Controller's office near the end of October. The Controller utilizes these requests, along with capital budget requests, as the starting point for developing a proposed General Fund budget. The Controller conducts budget review meetings and presents the proposed budget to the Board of Commissioners at the December Board meeting. A public hearing on the proposed budget is conducted prior to the December Board meeting. The appropriated budget is a line item budget prepared by fund, category (i.e., capital improvements, park operations), department/park (i.e., Metro Beach, Kensington), subdepartment/activity (i.e., golf course, regulatory) and object (i.e., full time wages, utilities). The Director is authorized to make budgetary transfers between line item appropriations. budgetary appropriation transfers by category are approved by the Board of Commissioners on a quarterly basis. Budget-to-actual comparisons are provided in this report for the General Fund and Capital Projects Fund. The Authority maintains an encumbrance accounting system and a work order system for capital construction type projects to assist in maintaining budgetary control.

The Board of Commissioners has also established a Capital Projects Fund called the Supplemental Major Maintenance Fund to account for all oil/gas royalty revenues. These revenues are restricted for accomplishing large infrastructure repairs (over \$200,000) within the Metropark system. Infrastructure repair projects are evaluated on the basis of need and require Board of Commission approval.

LONG-TERM FINANCIAL PLANNING

The Huron-Clinton Metropolitan Authority employs a Five-Year Regional Recreation Plan to provide long term recreational and financial planning for the Metropark system. During 2002, a great deal of Staff's time was spent developing a new Five-Year Plan covering the years 2003 to 2007. The development of the Five-Year Plan is a planning process that is a joint effort involving the general public, park staff, Administrative Office staff, Planning, Engineering and the Board of Commissioners. The cornerstone of this Five-Year Plan is a Park User/Non-User Telephone Survey of the five county area, which was conducted by Morpace International, Inc. The Authority's Administrative Staff developed a preliminary Five-Year Plan, which was reviewed at a special workshop meeting held by the Board of Commissioners. After much discussion and further meetings, the financial projection section of the Authority's Five-Year Plan was approved in August 2002. A major shift was made in the allocation of capital improvement funds. Due to the large amount of aging infrastructure within the Metropark system, the Five-Year Plan emphasized renovation/redevelopment/restoration type projects rather than new park developments. Two-thirds of the anticipated capital improvement funds for the five years were allocated to these types of projects. The Five-Year Plan represents a balanced plan that addresses many different areas, such as:

- Maintains present high standards of maintenance and service levels for existing park operations.
- Provides funds to complete development of capital improvement projects started prior to 2003.
- ♦ Provides operational funds for new Metropark facilities as they are completed, such as Indian Springs Environmental Education Center, Kensington Aquatic Play Area, Stony Creek Golf Course and Lower Huron Aquatic Complex.
- Maintains a functional fleet of equipment plus equipping new facilities.
- Funds replacement of major facilities at Lower Huron Swimming Pool, Stony Creek Nature Center, Kensington Golf Starter Building, Metro Beach Group Rental and Senior areas, Metro Beach South Marina and Kensington Martindale Beach Aquatic Complex.

- ♦ Continues a program of replacing/upgrading vault latrines with flush toilet Comfort Stations.
- Provides funds to secure Authority park boundaries with fencing.
- Provides funds for various natural resource management projects.

GENERAL FUND BALANCE

In keeping with fiscally responsible budgeting practices, the Authority actively funds a Reserve for Future Contingency account to set aside funds to meet unanticipated/underbudgeted expenditures, emergencies and/or revenue shortfalls. The Authority's goal is to maintain this account at 5% of the general fund budget appropriations.

At the end of 2006, these unreserved funds which are undesignated totaled \$2.4 million, a decrease of \$0.4 million from 2005's level. The Authority's adopted 2007 Budget will retain additional 2007 funds to put the Authority's Reserve for Future Contingencies account back up to \$3.7 million - 5% of the general fund budget.

CAPITAL PROJECTS FUND

The Authority utilizes a Capital Projects Fund to record supplemental major maintenance projects that are non-recurring expenditures to repair/replace existing Metropark infrastructure. As designated by the Authority's Board of Commissioners, oil/gas royalty revenues are earmarked to fund these large projects.

During 2006, \$768,000 of royalty payments were received, with generated investment income totaling \$267,000. The major project in 2006 was the replacement of the water distribution system at Lower Huron Metropark, where \$1,329,000 was expended.

At the end of 2006, the unappropriated balance of the Supplemental Major Maintenance Reserve stood at \$5.0 million.

FIDUCIARY FUNDS

The Authority maintains a single employer, defined benefit pension plan, which is reported in the Pension Trust Fund based on its September 30 fiscal year end. An actuarial study determines the funding required by the Authority to meet its future benefit obligations. For the Plan year ended September 30, 2006 the Authority's required contribution was \$1,535,961. In the most recent Actuarial Valuation Report for the September 30, 2006 Plan year, the total estimated Actuarial Accrued Liability was \$44,727,000. Total Plan assets at this time were \$33,132,000. One method of assessing the financial strength of a pension plan is to determine the percentage of liabilities that has been funded. This percentage for the Authority's Plan at September 30, 2006 was 74.1%, compared to 74.2% one year earlier.

The Authority established the Retiree Health Care Plan and Trust effective October 1, 2005. This Plan and Trust constitutes a governmental trust pursuant to Section 115 of the Internal Revenue Code of 1986. it was created under the authority of the Public Employee Health Care Fund Investment Act, Public Act 149 of 1999, The Plan and Trust was established to allow for the Authority's funding of eligible retiree and spouse health care benefits. An actuarial valuation was performed as of October 1, 2003 with the total estimated actuarial accrued liability of the Authority postemployment health benefits established as \$37.1 million. At the end of the Plan's first fiscal year, Plan assets stood at \$4,819,000. The Authority continues to fund postemployment benefits on a pay-as-you-go basis.

CASH MANAGEMENT

It is the policy of the Authority to invest public funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow needs of the Authority and comply with all State statutes governing the investment of public funds consistent with the Authority's Investment Policy.

Cash temporarily idle during the year was invested in certificates of deposit, pooled investment funds and U.S. Agency issues. The Authority earned \$1,737,000 on all general fund investments for the year 2006.

RISK MANAGEMENT

The Authority purchases all of its property/casualty insurance coverages through various commercial insurance carriers. The majority of the coverages are underwritten by CNA Insurance Companies.

Major policies and their limits of coverage include:

1.	General Liability	\$1,000,000/occurrence \$2,000,000 aggregate
2.	Excess Umbrella Liability	\$20,000,000/occurence/aggregate
3.	Public Officials Liability	\$11,000,000/occurence/aggregate \$9,000,000 excess
4.	Fiduciary Liability	\$2,000,000/occurence/aggregate
5.	Law Enforcement Liability	\$11,000,000/occurrence/aggregate
6.	Automobile	\$1,000,000 single limit
7.	Property/Casualty	\$62.1 million
8.	Workers Compensation	Statutory limits

\$1,000,000

10.	Underground Storage Tank	\$1,000,000/occurence
	Pollution Liability	\$2,000,000 aggregate

11. Pollution Liability \$5,000,000/occurence/aggregate

These coverages are reviewed and evaluated annually by an independent insurance consultant.

DEBT

The Authority has not issued any bonded debt. The Authority's Enabling Act restricted debt issues to only revenue bonds. Over the years, the Authority has never felt it necessary to issue revenue bonds as a means of financing recreational facilities. Rather, the Authority has always operated on a "pay-as-you-go" basis, meaning no Authority taxes or revenues have been utilized to service debt issues.

PENSION AND OTHER POSTEMPLOYMENT BENEFITS

The Authority sponsors a single employer defined benefit pension plan for all its full time employees. Annually, an independent actuary engaged by the pension plan calculates the amount of the annual contribution that the Authority must make to the pension plan to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis. As a matter of policy, the Authority fully funds each year's annual required contribution to the pension plan as determined by the actuary.

The Authority also provides postretirement health, dental care, vision and life insurance benefits for retirees and their dependents. As of the end of the current fiscal year, there were 117 retired employees/spouses receiving these benefits, which are financed on a pay-as-you-go basis.

Additional information on the Authority's pension plan and postemployment benefits can be found in notes V.D. and E.

OTHER INFORMATION

Independent Audit

State statute requires an annual audit by an independent certified public accountant. The accounting firm of Rehmann Robson was selected by the Board of Commissioners. The audit is conducted in accordance with generally accepted auditing standards and the standards for financial audits contained in <u>Government Auditing Standards</u> issued by the Comptroller General of the United States. The audit will meet the requirements set forth by State statute and will include tests of the accounting records of the Authority and other procedures necessary for Rehmann Robson to express an opinion on the financial statements.

The auditor's report on the financial statements, required supplementary information and supplemental schedules are included in the **FINANCIAL SECTION** of this report.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Huron-Clinton Metropolitan Authority for its comprehensive annual financial report for the year ended December 31, 2005. This was the fifth consecutive year that the Authority has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements

The preparation of this comprehensive annual financial report on a timely basis was a major undertaking for the Authority's Controllers Department. In particular, the extra efforts of Chief Accountant Rebecca Franchock, Accountant Betty Dobar and Secretary Karen George were absolutely essential. The guidance from our independent auditors, Rehmann Robson, was also necessary to direct us through the compilation of our comprehensive annual financial report. These extra efforts are much appreciated.

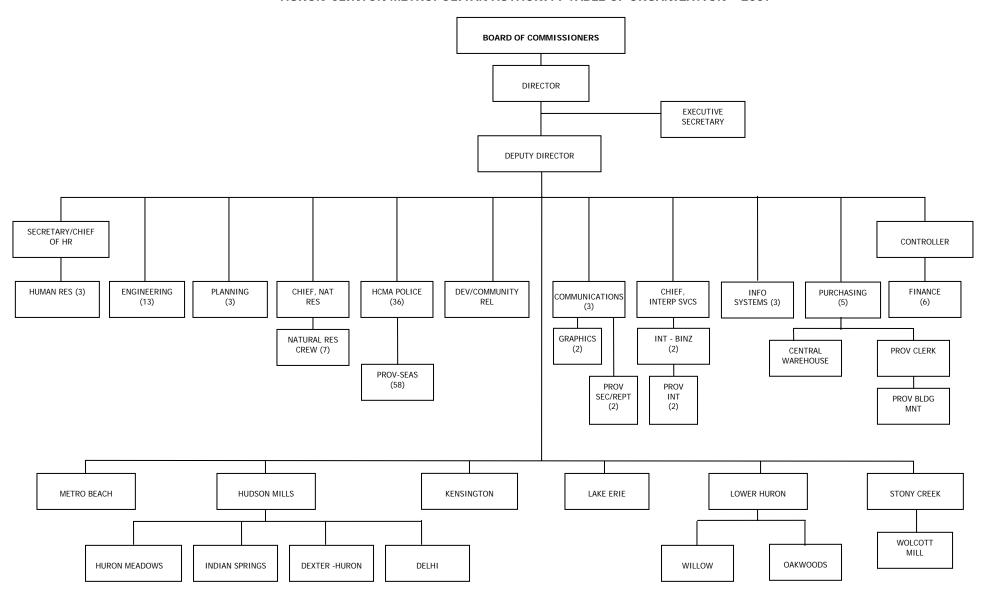

Finally, without the leadership and support of the Board of Commissioners, preparation of this report would not have been possible.

Respectfully submitted,

DENNERUNE

INDEPENDENT AUDITORS' REPORT

April 27, 2007

To the Board of Commissioners Huron-Clinton Metropolitan Authority Brighton, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of *Huron-Clinton Metropolitan Authority* (the "Authority"), as of and for the year ended December 31, 2006, (except for the Pension Trust Fund which is as of and for the year ended September 30, 2006) which collectively comprise the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of *Huron-Clinton Metropolitan Authority*, as of December 31, 2006, (except for the Pension Trust Fund which is as of and for the year ended September 30, 2006) and the respective changes in financial position thereof and the budgetary comparisons of the General Fund for the year then ended in conformity with accounting principles general accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated April 27, 2007, on our consideration of the *Authority's* internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and the Schedule of Funding Progress listed in the table of contents are not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The Introductory Section, Combining Fund financial statements, and Statistical Section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion on them.

Gerald Desloover, C.P.A, C.G.F.M, being duly sworn, deposes and says that he is a partner in the firm of Rehmann Robson and that he has signed the forgoing auditors' report in that capacity.

Rehmann Lohan

Management's Discussion and Analysis

As management of the Huron-Clinton Metropolitan Authority, we offer the readers of the Authority's financial statements this narrative overview and analysis of the financial activities of the Huron-Clinton Metropolitan Authority for the year ended December 31, 2006. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, the financial statements and the notes to the financial statements.

Financial Highlights

- The assets of the Authority exceeded its liabilities at the end of 2006 by \$203,210,085 (net assets). Of this amount, \$27,468,449 (unrestricted net assets) may be used to meet the Authority's ongoing obligations to provide park and recreation services to the citizens of the five-county Metropark system.
- The Authority's total net assets increased significantly by \$8,271,033.
- The emphasis of the Authority's Five-Year Plan was to renovate, reconstruct and replace worn out, outdated recreational facilities. 2006 capital improvement expenditures reflect this emphasis as indicated by the following in-progress projects:
 - 1. Replacement of the Stony Creek Metropark Nature Center (\$1,028,000).
 - 2. Renovation of Martindale Beach at Kensington Metropark with the construction of an Aquatic Play Area (\$1,165,000).
 - 3. Replacement of the Food Concession Building at the Kensington Metropark Farm Center (\$481,000).
 - 4. Reconstruction of main park roads and hike/bike trails at Kensington, Lower Huron, Stony Creek, Oakwoods and Indian Springs Metroparks (\$1,120,000).
 - 5. Replacement of the Lower Huron 1957 pool with an \$8.8 million Family Aquatic Center. The construction of this project started in 2006, with \$2,236,000 expended.
 - 6. The complete reconstruction of the bridge decks and hike/bike trails at the North and South Dam bridges at Stony Creek Metropark was completed at a 2006 cost of \$1,078,000.
 - 7. Under the Authority's Capital Projects Fund a major \$2.3 million project was started to completely replace the water distribution system at Lower Huron Metropark. As of the end of 2006, \$1,329,000 was expended on this project.
- At Indian Springs Metropark work continued on the Environmental Discovery Center, the Adventure Play Area and the Environmental Study Area, where \$296,000 was expended.
- The Authority established the Retiree Health Care Plan and Trust effective October 1, 2005 with a September 30 fiscal year. The Plan and Trust was established for the exclusive purpose of enabling the Authority to fund retiree health care benefits for eligible retirees and spouses. The Authority transferred \$4,490,300 during the Plan year ended September 30, 2006.

- The Stony Creek Golf Course facility, which was operated by a concessionaire since 1976, was transferred to the Authority effective November 30, 2007. The Authority recognized the net value of assets transferred in the amount of \$1,320,000.
- Authority General Fund revenues at \$48.9 million exceeded 2006 budget targets by \$0.3 million (0.6%).
- Authority General Fund operating expenditures at \$36.7 million were under amended 2006 Budget amounts by \$2.1 million (5.4%).

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Authority's finances in a manner similar to private-sector business.

The *statement of net assets* presents information on all of the Authority's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The *statement of activities* presents information showing how the Authority's net assets changed during the most recent year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash* flows. Thus, revenues and expenses are reported in this statement for some items that will result only in cash flows in future years (i.e., earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Authority that are principally supported by taxes and program revenues. The sole governmental activity of the Authority consists of providing regional park and recreation services in the five-county metropolitan Detroit area. The Authority is a single purpose governmental agency.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Authority, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Authority can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Authority maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General and Capital Projects funds, each of which are considered to be major funds.

The Authority adopts an annual appropriated budget for its General and Capital Projects fund. A budgetary comparison statement has been provided herein to demonstrate compliance with these budgets.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the Authority's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The Authority uses a fiduciary fund to account for (1) its single employer, defined benefit pension plan, which accumulates resources for pension benefit payments to qualified Authority employees, and (2) its Retiree Health Care Plan and Trust, which accumulates resources for health care benefit payments to qualified Authority retirees. These funds are based on the Plan's September 30 fiscal year ends.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. This information is limited to a schedule concerning the Authority's progress in funding its obligation to provide pension benefits to its employees.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Huron-Clinton Metropolitan Authority, assets exceeded liabilities by \$203,210,085 at the close of the year.

By far the largest portion of the Authority's net assets (86 percent) reflect its investment in capital assets (i.e., land, buildings, infrastructure, roads, park improvements, vehicles and equipment). The Authority uses these capital assets to provide park and recreation services to citizens; consequently, these assets are *not* available for future spending. Although the Authority's investments in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The Authority does not have any bonded debt.

Huron-Clinton Metropolitan Authority's Net Assets

	Governmental Activities	
	2006	2005
Current and other assets	\$69,307,336	\$68,430,532
Capital assets	175,741,636	166,366,007
Total assets	245,048,972	234,796,539
Long-term liabilities outstanding	3,390,965	3,221,498
Other liabilities	38,447,922	36,635,985
Total liabilities	41,838,887	39,857,483
Net assets:		
Invested in capital assets, net of related debt	175,741,636	166,341,053
Unrestricted	27,468,449	28,597,999
Total net assets	\$203,210,085	\$194,939,052

No portion of the Authority's net assets represent resources that are subject to external restrictions on how they may be used. The *unrestricted net assets* may be used to meet the Authority's ongoing obligations for park and recreation facilities and services to citizens and creditors.

At the end of the current year, the Authority is able to report a positive balance in net assets. The same situation held true for the prior fiscal year.

The Authority's net assets increased by \$8,271,033 during the current year. Nearly all of this increase represents additional investment by the Authority in capital assets, net of depreciation.

Huron-Clinton Metropolitan Authority Changes in Net Assets

	Governmental Activities		
	2006	2005	
Revenue:			
Program revenue:			
Park charges for services	\$12,814,635	\$13,247,181	
Operating grants	78,989	25,853	
Capital grants	0	32,600	
General revenue:			
Property taxes	32,650,984	31,460,809	
Oil and gas royalties	767,856	946,594	
Donations	128,136	43,756	
Interest	2,003,680	1,506,083	
Miscellaneous	1,449,148	237,364	
Total revenue	49,893,428	47,500,240	
Expenses:			
Park operations	34,409,197	36,525,959	
Administrative office	5,408,260	5,911,474	
Major maintenance	693,405	760,249	
General engineering/planning	1,095,958	1,306,680	
Interest on long-term debt	667	3,742	
Local cost share projects	14,908	0	
Total expenses	41,622,395	44,508,104	
Increase in net assets	8,271,033	2,992,136	
Net assets – beginning of year	194,939,052	191,946,916	
Net assets – end of year	\$203,210,085	\$194,939,052	

Governmental activities. Governmental activities increased the Authority's net assets by \$8,271,033. Key elements of this increase are as follows:

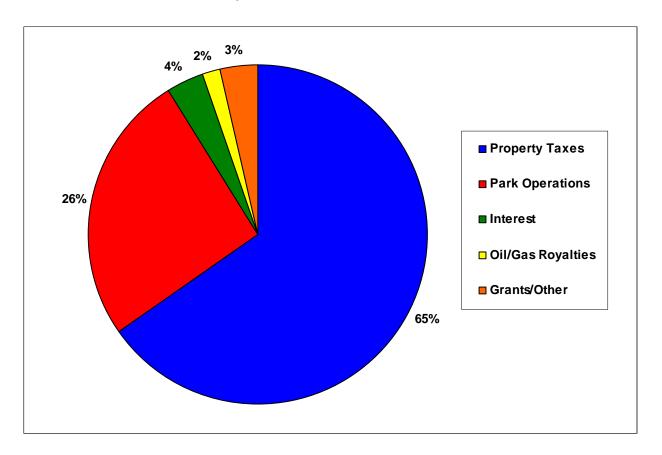

• Property taxes increased by \$1,190,175 (3.8 percent) during the year. Most of this increase is the product of increased taxable values and new construction, both residential and commercial/industrial within the five-county park district.

- All other revenue sources grew by a similar amount \$1,171,827 (7.3 percent).
- Direct operating expenses of the Metropark system decreased \$2.7 million (6.0 percent) due to the one time charge of expensing \$4.3 million related to compensated absences in 2005.
- 2006 revenues exceeded 2006 expenses by \$8.2 million, over double the excess in 2005. These excess funds are used for Authority capital outlays.

Expenses and Program Revenues – Governmental Activities

Revenues by Source – Governmental Activities

Financial Analysis of the Government's Funds

As noted earlier, the Authority uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Authority's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Authority's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the year.

As of the end of the current year, the Authority's governmental funds reported a combined ending fund balance of \$30,995,888, a decrease of \$924,888 compared with 2005. Approximately seventy-one percent of this total amount (\$22.2 million) constitutes *unreserved fund balance*, which has been designated by the Authority for 2007 capital appropriations, supplemental major maintenance capital appropriations and the 2007 Budget. The remainder of fund balance (\$8.8 million) is *reserved* to indicate that it is not available for new spending because it has already been committed for: 1) capital improvement projects under contract, 2) equipment purchases on order, 3) engineering and consulting work under contract, 4) operating supplies inventory for consumption in park operations, and 5) a contingency fund for uninsured insurance claims.

The general fund is the primary operating fund of the Authority. At the end of the current year, unreserved fund balance of the general fund was \$17,088,644, while total fund balance was \$25,042,543. As a measure of the general fund's liquidity, it may be useful to compare unreserved fund balance to total fund expenditures. Unreserved fund balance represents thirty-four percent of total general fund expenditures. The majority of the unreserved fund balance (\$14.7 million) has been designated by the Authority's Board of Commissioners for capital improvement projects and land acquisition. At the end of the year, no formal contractual commitments with outside parties have been made for these funds.

The fund balance of the Authority's general fund decreased by \$432,813.

The following paragraphs present a summary of general fund revenues, which totaled \$48,873,889 for 2006, an overall increase of \$2,609,604 over 2005. Revenues by source were as follows:

<u>Revenue</u>	2006 <u>Amount</u>	Percent of Total	2005 Amount	Amount of Increase (Decrease)	Percent of Increase (Decrease)
Property Taxes	\$32,597,201	66.7%	\$31,398,443	\$1,198,758	3.8%
Park Operations	12,814,635	26.2%	13,247,181	(432,546)	(3.3%)
Interest	1,736,966	3.5%	1,328,532	408,434	30.7%
Grants	78,989	0.2%	58,453	20,536	35.1%
Donations	128,136	0.3%	43,756	84,380	192.8%
Miscellaneous	1,517,962	3.1%	187,920	1,330,042	707.8%
TOTALS	\$48,873,889	100.0%	\$46,264,285	\$2,609,604	5.6%

Although the Authority's millage rate continues to be rolled back (0.4%) from .2154 mills to .2146 mills in 2006 and local community captured taxes (DDA's, TIFA's, etc.) continued to grow, net property tax collections moved up to \$32.6 million. The collection rate on the Authority's 2006 tax levy continued strong, as 99.2% of the adjusted 2006 levy has been collected. Taxes continue to be the Authority's primary source of revenue and provide a stable base of funds to operate the Metropark system.

The \$12,815,000 of 2006 park operating revenues not only fell short of 2006 revenue budget goals (\$332,000), but they also represent a \$433,000 (3.3%) decline from 2005 revenue levels of \$13,247,000. This is the largest one year decline in park operating revenues ever experienced by the Authority, both from a dollar and a percentage standpoint. Although weather patterns were generally favorable throughout 2006, the drastic downturn in the southeast Michigan economy was the real culprit in generating these disappointing revenue results. The impact of this weak economy was very evident in the Authority's largest park operating revenue source - golf. Authority golf courses suffered a loss of another 10,000 rounds in 2006, which translated into a \$252,000 drop in golf revenues. All of the budget revenue shortfall of \$332,000 can be attributed to golf, which missed budget targets by \$335,000. Park operating revenue shortages in all other areas were basically offset by overages.

Fortunately, the park operating revenue shortage was offset by an overage in interest revenues, which grew to \$1,737,000, surpassing budgeted amounts by \$337,000. This interest income is

derived from investments in Certificates of Deposit and U.S. Agency issues. Due to the continued rise in interest rates by the Federal Reserve Board in the first half of 2006, Authority investments were placed in higher yielding investments than in 2005. The average yield on Authority investments was 4.6% throughout 2006.

The Authority recognized \$79,000 from various grant projects in 2006. Grants were received for (1) police radio upgrades (\$51,300), (2) ash tree replacements (\$15,300), and (3) osprey reintroduction program (\$9,300).

Donations totaled \$128,000 in 2006. The Huron-Clinton Metroparks Foundation transferred \$57,800 to the Authority during 2006. The value of donated police radios from the Homeland Security Agency was recognized for \$48,400. Various other cash donations totaling \$21,800 were received for picnic tables, trees, benches, deer processing, Earth Day, fireworks and interpretive center donation boxes.

The Authority recognized \$1,518,000 of miscellaneous revenues. This figure is inflated due to the recognition of the \$1,320,000 associated with the transfer of the net asset values from the termination of the Stony Creek Golf Course lease.

General fund expenditures were \$49,840,679, an increase of \$2,081,078 over 2005's expenditures. A detailed breakdown of expenditures by major category is as follows:

Expenditure	2006 Amount	Percent of Total	2005 Amount	Amount of Increase (Decrease)	Percent of Increase (Decrease)
Engineering/Planning	\$723,530	1.5%	\$1,015,643	(\$292,113)	(28.8%)
Capital Improvements	9,663,892	19.4%	6,525,798	3,138,094	48.1%
Equipment	2,497,008	5.0%	2,164,707	332,301	15 .4%
Land Acquisition	213,825	0.4%	2,554,122	(2,340,297)	(91.6%)
Major Maintenance	693,405	1.4%	760,249	(66,844)	(8.8%)
General Administration	5,337,720	10.7%	5,166,242	171,478	3 .3%
General Planning and					
Engineering	1,068,791	2.2%	1,022,421	46,370	4.5%
Park Operations	29,616,888	59.4%	28,506,499	1,100,389	3 .9%
Debt Service	25,620		43,920	(18,300)	(41.7%)
TOTALS	\$49,840,679	100.0%	\$47,759,601	\$2,081,078	4.4%

Engineering and Planning Department expenses are divided between capital outlays and current operating expenditures. The engineering and planning capital expenditures that are capitalized reflect expenses incurred on capital projects while they are planned and designed, prior to the awarding of a construction contract. These costs totaled \$724,000 in 2006, reflecting a 29% decrease from 2005. This drop can be traced to a reduction of outside consulting engineering services associated with the Lower Huron Family Aquatic Center and the Indian Springs Environmental Discovery Center. The general planning and engineering current operating expenditures reflect planning and engineering expenses of a general nature that are not specifically tied to a capital improvement project. These expenditures include general planning studies, conceptual studies, community relations, Administrative Office overhead personnel,

departmental fringe benefits and leave time. These expenses totaled \$1,069,000 in 2006, compared to \$1,022,000 in 2005.

Capital improvement outlays cover construction projects that exceed the Authority's \$10,000 capitalization limit. Throughout 2006, the Authority spent a total of \$9.7 million on 56 separate capital improvement projects within the Metropark system. This represents \$3.1 million more than the amount spent on park improvement projects during 2005. These projects enhanced the Authority's recreational facilities offered the public in terms of park roads, walks, parking lots, buildings, aquatic facilities, utilities, landscaping, golf courses and other improvements. Many of the more significant 2006 capital improvement projects have been previously highlighted under the **MAJOR INITIATIVES** section of this report.

Equipment having an individual value in excess of \$600 is capitalized. During 2006 a total of \$2.5 million was spent equipping the Metropark system, up from 2005's level. Heavy equipment (mowers, tractors, golf cars, etc.) purchases accounted for \$1.7 million of equipment expenditures. Auto and truck acquisitions totaled \$0.5 million.

Land acquisition during 2006 brought another 5 acres (with a house) into the Metropark system at Indian Springs Metropark at a cost of \$214,000.

The Authority classifies all non-recurring repair/maintenance-type projects that exceed \$10,000 as Major Maintenance expenses. These projects do not substantially improve or alter an existing facility and, therefore, are not capitalized. During 2006, Metropark facilities were renovated with 29 separate projects at a cost of \$693,000.

General Administration costs reflect the costs of running the Authority's centralized Administrative Office, which ran \$5.3 million in 2006. This covers the cost of 27 full time employees, 117 retired employees (health care benefits), materials, supplies and outside consultants utilized in managing the entire Metropark system. Personnel costs pushed up \$306,000 (8%) as a 2.5% negotiated wage increase kicked in, three retirement severance payouts took place and health care costs continued to rise. Materials/supplies/outside consulting services associated with the operation of the Administrative Office declined \$134,000 (11%) as legal fees dropped from 2005 levels.

The direct operating costs associated with operating and maintaining the 13 Metroparks consumed \$29.6 million of Authority funds. Comparing this \$29.6 million of park operating costs to 2005 expenditures of \$28.5 million shows that overall park operating costs increased \$1.1 million or 3.9%. Personnel related costs, which make up 76% of park operating expenses, rose \$766,000 or 3.5% to \$22.5 million. Contributing factors include: (1) full time wages rising \$344,000, reflecting the 2.5% negotiated wage increase; (2) part time wages increasing \$158,000 due to an adjustment in part time wage scales; and (3) health care and group insurance benefits up \$175,000. Looking at the material/supply/outside contractual service costs to run the Metroparks operations shows that overall these costs ran \$7.1 million in 2006, an increase of \$344,000 (5.1%) over 2005. These increased costs can be directly attributed to higher utility, gasoline, communication and outsourced equipment repair expenses.

General Fund Budgetary Highlights

Over the course of the year, the Authority's Board of Commissioners revised the Authority budget several times. These budget amendments fall into three categories:

- Increases in appropriations to prevent overruns for capital or operating expenditures.
- Amendments made shortly after the beginning of the year to reflect carryover capital appropriations.
- Amendments made to increase revenue/expenditure budgets for events that were not properly anticipated when the budget was compiled.

Differences between the original budget and the final amended budget were generally minor with the following exceptions:

- The \$1.1 million decrease in budgeted property tax revenues results mainly from local units of government capturing Authority tax revenues under various tax abatement programs.
- The \$5.8 million increase in capital expenditures budget relates mainly to capital improvement appropriations (\$5.1 million) and engineering/planning appropriations (\$0.4 million) that were carried over from 2005.

During the year, general fund revenues exceeded final budgetary estimates in total by \$310,000, mainly because interest revenues grew faster than expected. All operating and capital expenditure categories were within amended budgeted amounts.

Capital Asset and Debt Administration

Capital assets. The Authority's investment in capital assets for its governmental-type activities as of December 31, 2006 amounted to \$175,741,636 (net of accumulated depreciation). This investment in capital assets includes land, land improvements (golf courses, etc.), buildings, roads, bridges, sewer/water systems, park facilities and equipment. The total increase in the Authority's investment in capital assets (net of depreciation) for the year was six percent (\$9.4 million).

Major capital asset events during the current year included the following:

•	Hike/Bike Trail - Maple Beach Extension	Kensington	\$ 263,000
•	Main Park Road Reconstruction	Kensington	299,000
•	Farm Center Food Bar*	Kensington	408,000
•	Aquatic Play Area*	Kensington	1,165,000
•	Family Aquatic Center	Lower Huron	2,221,000
•	Hike/Bike Trail Reconstruction - North/South Dam Bridge	Stony Creek	1,078,000

•	Nature Center*	Stony Creek	1,028,000
•	Stony Creek Golf Course	Stony Creek	1,320,000
•	Main Park Road Reconstruction	Oakwoods	186,000
•	Service Yard Paving	Lake Erie	186,000
•	Golf Course Cart Paths	Wolcott	96,000
•	Golf Course Driving Range	Wolcott	150,000
•	Environmental Discovery Center Habitat Restoration*	Indian Springs	113,000
•	Environmental Discovery Center Building*	Indian Springs	80,000
•	Environmental Discovery Center Play Area*	Indian Springs	74,000
•	Land - 5 acres/1 house	Indian Springs	214,000
•	Heavy Equipment	All Parks	1,683,000
•	Autos/Trucks	All Parks	496,000

^{*} Denotes construction in progress.

Additional information on the Authority's capital assets can be found in notes to these financial statements of this report.

Long-term debt. The Authority has recognized \$4,410,440 in accrued compensated absences.

The Authority has no bonded debt or capital leases.

Additional information on the Authority's long-term debt can be found in notes to these financial statements.

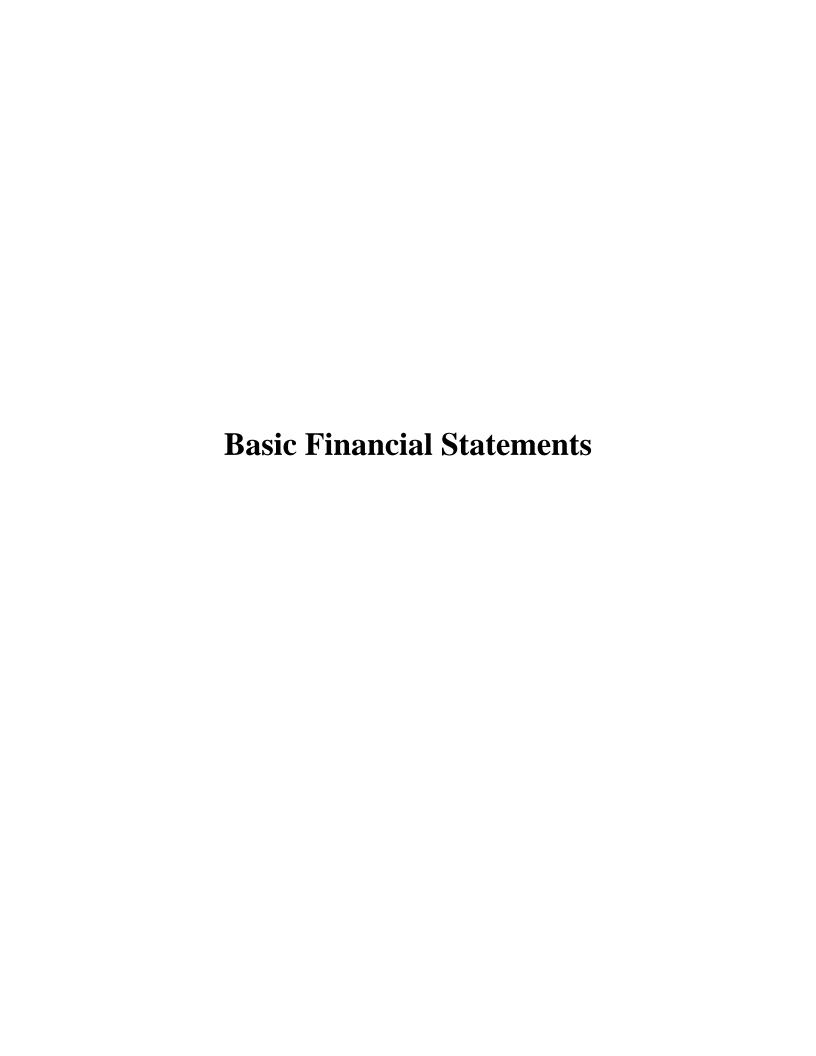

Economic Factors and Next Year's Budget and Rates

The following factors guided the preparation of the Authority's 2007 budget:

- The Board of Commissioner's approved Five-Year Plan for 2003 to 2007 provided general guidance on the allocation of Authority funds.
- Property tax revenues were based on a rolled back millage rate of .2146 mills. The growth in the housing market in the five-county park district enabled projected property tax revenues to grow to \$35.6 million (before tax levy adjustments).
- No major park user fee increases were included in the 2007 budget. Accordingly, park
 operating revenues on existing facilities were projected to remain relatively flat. Park
 operating revenues are expected to increase \$0.9 million with the addition of the Stony
 Creek Golf Course.
- Inflationary trends in the region compare favorably to national indices.

Requests for Information

This financial report is designed to provide a general overview of the Huron-Clinton Metropolitan Authority's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Controller, Huron-Clinton Metropolitan Authority, 13000 High Ridge Drive, Brighton, Michigan, 48114-9058.

RECONCILIATION OF THE STATEMENT OF NET ASSETS AND GOVERNMENTAL FUNDS BALANCE SHEET

DECEMBER 31, 2006

Fund balance - total governmental funds	\$ 30,995,888
When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net assets includes those capital assets among the assets of the Authority as a whole.	
Cost of capital assets Accumulated depreciation	228,749,494 (53,007,858)
Net assets	175,741,636
Since governmental funds recognize revenue on the modified accrual basis of accounting, the proceeds on sale of land under a land contract sale is not recognized as revenue in the governmental funds until it is "available." However, in the statement of activities, the sale of the land is recognized in revenue.	84,056
Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current-period expenditures. Those assets are offset by deferred revenues in the governmental funds and thus are not included in fund balance.	798,945
Long-term liabilities applicable to the Authority's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities both current and long-term are reported in the statement of net assets.	
Compensated absences	(4,410,440)

The accompanying notes are an integral part of these financial statements.

\$203,210,085

Net Assets - total governmental activities

RECONCILIATION OF THE STATEMENT OF ACTIVITIES AND GOVERNMENTAL FUNDS REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES

For the Year Ended December 31, 2006

Net change in fund balances - total governmental funds	\$ (924,888)
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense	
Add capital outlay expense	14,609,991
Less current year depreciation	(4,733,131)
Less book basis in assets sold	(502,792)
Because some property taxes will not be collected for several months after the Authority's fiscal year end, they are not considered as "available" revenues in the governmental funds. Similarly, some property taxes may ultimately be uncollectable and an allowance for these collectibles has been established in the statement of activities.	53,783
Because certain post-employment benefit expenses will not be paid using current financial resources, they are not included in the governmental funds. However, the liability results in an expense in the statement of activities.	(156,883)
Proceeds from an insurance settlement will not be collected for several months after the Authority's fiscal year end, thus they are not considered available revenues in the governmental funds. In the statement of activities, this revenue is recognized as it meets revenue recognition guidelines under the full accrual	
method.	(100,000)
Repayment of capital lease principal is reported as an expenditure in governmental funds and, thus, has the effect of reducing fund balance because current financial resources have been used. Principal payments reduce the liabilities in the statement of net assets and do not result in an expense in the statement of activities.	24,953
Change in net assets of governmental activities	\$ 8,271,033

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Huron – Clinton Metropolitan Authority ("the Authority") was created in 1939 as a special district form of government to provide recreational facilities and services to residents of Livingston, Macomb, Oakland, Washtenaw, and Wayne Counties. The Authority is governed by a Board of Commissioners, which consists of a Commissioner appointed by the Board of Commissioners from each of the five participating counties, and two Commissioners appointed by the Governor of Michigan. Principal funding for the Authority is derived from a property tax levy assessed in each of the five participating counties.

The Authority has determined that no entities should be consolidated into its basic financial statements as component units. The criteria for including a component unit include entities for which the government is considered to be financially accountable. Therefore, the reporting entity consists only of the primary government.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of the inter-fund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

NOTES TO FINANCIAL STATEMENTS

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement* focus and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, intergovernmental revenues and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Authority.

The Authority reports the following major governmental funds:

The *general fund* is the Authority's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *capital projects fund* is used to record supplemental major maintenance projects of the Authority, which are nonrecurring expenditures to repair or replace existing park facilities. As designated by the Authority, oil and gas revenues received are earmarked to fund these projects.

In addition, the government reports the following fund types:

The *pension trust funds* account for the Authority's single employer, defined benefit pension plan and other post employment benefits, which accumulate resources for pension benefit and other postemployment benefit payments to qualified Authority employees. The Funds are based on the Plans' September 30th fiscal year ends.

NOTES TO FINANCIAL STATEMENTS

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include 1) charges to park customers, and 2) capital and operating grants. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes along with oil and gas royalties.

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities, and Net Assets

1. Deposits and investments

The Authority's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the government to deposit in the accounts of federally insured banks, credit unions, and savings and loan associations, and to invest in obligations of the U.S. Treasury, certain commercial paper, repurchase agreements, bankers acceptances, and mutual funds composed of otherwise legal investments. The State's Pension Investment Act, as amended, authorizes the pension trust fund to invest in common stocks, real estate, and various other investment instruments, subject to certain limitations.

Investments are stated at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. Investments that do not have established market values are reported at estimated fair value. Cash deposits are reported at carrying amounts, which reasonably approximates fair value.

Unrealized appreciation or depreciation on pension trust fund investments due to changes in fair value are recognized each year.

NOTES TO FINANCIAL STATEMENTS

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of inter-fund loans) or "advances to/from other funds" (i.e., the non-current portion of inter-fund loans). All other outstanding balances between funds are reported as "due to/from other funds.

All property tax receivables are shown net of an allowance for uncollectible amounts. The allowance is estimated based upon the original year of the assessment and uses a graduated percentage ranging from 10 to 100 percent of the balance outstanding.

Real and personal property taxes are levied on December 1 on the taxable value of property located in the Counties as of the preceding December 31 (lien date). Taxable values are established annually by municipalities and are equalized by the Counties and State at 50% of estimated current market value or less. The Authority's operating tax rate for the 2005 levy (2006 property tax revenue) was .2146 mills. Taxes are receivable on the levy date and become delinquent on March 1 the following year. Property tax revenues are recognized as revenues in the operating year in which the levy is intended to fund to the extent that that they are measurable and available, and collected within sixty days after year end.

3. Inventories and prepaid items

Inventory maintained by the General Fund is valued at average cost. Inventory consists of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are consumed.

Certain payments made to vendors are for services applicable to future accounting periods and are included as other asset items in both the government-wide and fund financial statements.

4. Capital assets

Capital assets, which include property, buildings, equipment, other improvements and infrastructure (e.g., roads, bridges, paved pathways and water/sewer lines), are reported in the Statement of Net Assets column in the basic financial statements. Capital assets are defined by the Authority as assets with an initial, individual cost of more than \$600 for equipment and \$10,000 for all other assets, and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

NOTES TO FINANCIAL STATEMENTS

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed. No such interest expense was incurred during the current fiscal year.

Capital assets of the primary government are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
D '11'	20.50
Buildings	30-50
Infrastructure	15-50
Other improvements	15-50
Equipment	6-25

5. Compensated absences

The Authority allows employees to earn annual leave benefits and sick leave termination bonuses based, in part, on length of service. Annual leave is fully vested when earned and sick leave termination bonuses vest upon completion of ten years of service. Upon termination, employees are paid their accumulated sick leave termination bonuses and annual leave depending upon the nature of separation (death, retirement, or termination). All vacation pay is accrued when incurred in the government-wide fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

6. Long-term obligations

In the government-wide financial statements, long-term debt and other long--term obligations are reported as liabilities in the governmental activities statement of net assets.

7. Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

NOTES TO FINANCIAL STATEMENTS

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

Budgets for the General and Capital Projects Funds are adopted, on a basis consistent with generally accepted accounting principles (GAAP), and are adopted on a category level for each fund. Operating budgets including major maintenance, park operations and general administration categories lapse at year-end. Capital outlay budgets including engineering and general planning, capital improvements, equipment and land acquisition categories do not lapse at year-end.

Adoption and amendments of budgets used by the Authority are governed by Public Act 621. The governing body must approve the budget and amendments, including supplemental appropriations at the category level. The Authority's management can transfer appropriations between line items within a category without governing body approval.

B. Excess expenditures over appropriations

During the year ended December 31, 2006, the Authority incurred no expenditures that were in excess of the budgetary amounts.

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Summary of Deposit and Investment Balances

Following is a reconciliation of deposit and investment balances as of December 31, 2006:

Deposits and Investments	Deposits	Investment	Other	Total
Governmental - wide financial statement captions Cash and cash equivalents Investment	\$ 1,843,313 11,784,109	\$ 1,305,462 18,507,188	\$ 27,550	\$ 3,176,325 30,291,297

22.1.03.02.02	\$13,774,726	\$ 56,997,972	\$ 27,550	\$70,800,248

NOTES TO FINANCIAL STATEMENTS

The amounts included in the "Other" category above represent petty cash, change funds, and accrued interest.

Statutory Authority

The Authority is authorized by statute to invest surplus funds in the following:

- a. Bonds, securities, other obligations and repurchase agreements of the United States, or an agency or instrumentality of the United States.
- b. Certificates of deposit, savings accounts, deposit accounts or depository receipts of a qualified financial institution.
- c. Commercial paper rated at the time of purchase within the 2 highest classifications established by not less than 2 standard rating services and that matures not more than 270 days after the date of purchase.
- d. Bankers' acceptances of United States banks.
- e. Obligations of the State of Michigan and its political subdivisions that, at the time of purchase are rated as investment grade by at least one standard rating service.
- f. Mutual funds registered under the Investment Company Act of 1940, limited to mutual fund securities whose intention is to maintain a net asset value of \$1.00 per share.
- g. External investment pools as authorized by Public Act 20 as amended through December 31, 1997.

The Board of Commissioners is authorized to designate depositories for the Authority's funds, and to determine that the funds are invested in accordance with State of Michigan statutory authority.

The Authority's deposits are in accordance with statutory authority.

NOTES TO FINANCIAL STATEMENTS

The Authority's investments are categorized below to give an indication of the level of risk assumed by the entity at December 31, 2006.

	RATING			
Type of investment	AAA	AA	NR	Total
US Agencies				
less than 1 year	\$ -	\$ -	\$ -	\$ -
1 to 6 years	3,423,404	-	-	3,423,404

less than 1 year	-	4,195,992	-	4,195,992
1 to 6 years	-	-	-	-
Immediate Participation Contracts				
less than 1 year	-	-	-	-
1 to 6 years	-	2,947,085	-	2,947,085
Mutual Funds	-	-	13,858,046	13,858,046
Stocks			14,066,257	14,066,257
Total	\$ 21,930,592	\$ 7,143,077	\$ 27,924,303	\$ 56,997,972

Investment and deposit risk

Interest Rate Risk. State law limits the allowable investments and the maturities of some of the allowable investments as identified in the above list of authorized investments. The Authority's investment policy does not have specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. State law limits investments to specific government securities, certificates of deposit and bank accounts with qualified institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds and qualified external investment pools as identified in the list of authorized investments above. In compliance with State law, the Authority's investment policy limits investments to the top two ratings issued by nationally recognized statistical rating organizations. The Authority's investment policy does not have specific limits in excess of state law on investment credit risk. As of December 31, 2006, the Authority's investments in corporate bonds and corporate asset-backed securities were within these guidelines.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned. State law does not require and the Authority does not have a policy for deposit custodial credit risk. As of year-end

NOTES TO FINANCIAL STATEMENTS

\$14,231,303 of the Authority's bank balance of \$15,380,899 was exposed to custodial credit risk because it was uninsured and uncollateralized.

Custodial Credit Risk – Investments. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require and the Authority does not have a policy for investment custodial credit risk. On the investments listed above, there is no custodial credit risk, as these investments are either uninsured, unregistered, and held by a counterparty in the Authority's name or are uncategorized as to credit risk.

Concentration of Credit Risk. State law limits allowable investments but does not limit concentration of credit risk as identified in the list of authorized investments above. The Authority's investment policy does not have specific limits in excess of state law on concentration of credit risk. The investments that exceed 5% of the Authority's total investments are in mutual funds, investment pools, and US Agencies securities. All investments held at year-end are reported above.

B. Receivables

Receivables as of year-end for the governmental activities in the aggregate, are as follows:

Taxes	\$ 35,278,989
Due from other governments, current	36,854
Due from other governments, non-current	82,402
Total	<u>\$ 35,398,245</u>

Taxes receivable consist of the 2006 levy to be received in 2007 as well as delinquent personal property taxes. They are shown net of the allowance for doubtful accounts of \$1,463,000.

The current amount due from other governments is made up of state grants receivable.

The non-current amount due from other governments is a receivable from a municipality for land sold by the Authority on a land contract sale. This amount is receivable over 26 years.

NOTES TO FINANCIAL STATEMENTS

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned.

At the end of the current fiscal year, the various components of *deferred revenue* reported in the governmental funds were as follows:

	<u>Unavailable</u>
General Fund Taxes receivable	\$ 35,282,813
Non-current due from other governments	84,056
Total deferred revenue for governmental funds	\$ 35,366,869

Interfund Receivables and Payables

	Due from
<u>Due to</u>	Capital Projects
General fund	<u>\$ 20,573</u>

The outstanding balance between funds results mainly from the timelag between the dates that (1) interfund goods and services are provided, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

NOTES TO FINANCIAL STATEMENTS

C. Capital Assets

Capital assets activity for the year ended December 31, 2006 was as follows:

	Beginning Balance	Increases	Decreases	Transfers	Ending Balance
Governmental activities					
Capital assets not being depreciated:					
Land	\$ 43,488,293	\$ 213,825	\$ (54,939)	\$ -	\$ 43,647,179

Governmental activities Park operations Administrative offices	\$ 4,622,278 110,855
Total depreciation expense - governmental activities	\$ 4,733,133

NOTES TO FINANCIAL STATEMENTS

D. Capital Leases

The Authority has entered into a lease agreement as lessee for financing the acquisition of six bioject injection systems totaling \$69,540, of which there is no balance remaining at the end of the fiscal year.

The changes in capital leases for the year ended December 31, 2006 is as follows:

Beginning balance, January 1	\$ 24,953
Additions	-
Reductions	(24,953)
Ending balance, December 31	\$ -

E. Long Term Debt

Accrued compensated absences amounted to \$4,410,440 at year-end. Of this amount \$1,019,475 is expected to be paid in the following year.

Changes in long-term debt

Long-term liability activity for the year ended December 31, 2006, was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Capital leases Compensated	\$ 24,953	\$ -	\$ (24,953)	\$ -	\$ -
absences	4,253,552	1,306,874	(1,149,986)	4,410,440	1,109,475
Total long-term liabilities	<u>\$ 4,278,505</u>	<u>\$ 1,306,874</u>	<u>\$(1,174,939</u>)	<u>\$ 4,410,440</u>	\$ 1,109,475

V. OTHER INFORMATION

A. Risk Management

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and distribution of assets; errors and omissions; injuries to employees and natural disasters. The

NOTES TO FINANCIAL STATEMENTS

Authority carries commercial insurance to cover any potential claims associated with these risks and has had no claims that exceeded the insurance coverage during the past three years.

B. Contingent Liabilities

The Authority has received state grants for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowance under terms of the grants, management believes that any required reimbursements would not be material.

C. Construction Commitments

The Authority has established several construction contracts for various projects throughout it's park operations. The total of these contracts is \$15,248,647 of which \$6,501,173 has been paid resulting in remaining commitments in the amount of \$8,747,474.

D. Other Post Employment Benefits

In addition to providing pension benefits, the Authority provides certain health care and life insurance benefits for retired employees as established by collective bargaining agreements with local union organizations as approved by the governing board. Substantially all of the Authority's employees may become eligible for these benefits when they retire, after attaining 10 years of credited service. These benefits are provided through insurance companies and their billings are based on the benefits paid during the year. The Authority recognizes the cost of providing these benefits by expensing the annual insurance company billings, which were \$1,080,295 for 2006. The number of participants currently eligible to receive benefits is 117.

On October 1, 2005 the Authority established the Retiree Health Care Plan & Trust (the "Plan & Trust") with a fiscal year ending September 30, 2006 and transferred \$4,122,500 from the compensated absences internal service fund to the newly established Plan and Trust. In addition, the Authority contributed \$367,800 from the General Fund. This Plan and Trust was created, under the authority of the Public Employee Health Care Fund Investment Act, Public Act 149 of 1999 (MCL 38.1211 et seq.), and shall constitute a governmental trust pursuant to Section 115 of the Internal Revenue Code of 1986, as amended. The Plan and Trust was established to allow for the Authority's funding of retiree health care benefits, an essential governmental function. The Plan and Trust was created for the exclusive purpose of providing health care, dental, and optical insurance benefits or such other benefits approved by the Authority for the welfare of certain retirees and spouses eligible to receive a retirement benefit.

NOTES TO FINANCIAL STATEMENTS

E. <u>Defined Benefit Pension Plan</u>

The following brief description of the Huron-Clinton Metropolitan Authority's Employee's Retirement Plan (The Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

1. Plan Description

The Plan is a single-employer noncontributory defined benefit pension plan covering substantially all of the Authority's full-time employees. The Plan's fiscal year end is September 30, however, the actuarial valuation of the funded status of the Plan is performed as of October 1 of each year. The Plan is included as a pension trust fund in the Authority's primary government financial statements and a stand-alone financial report of the Plan has not been issued. The Plan is administered by the Authority's Pension Committee as appointed by the Authority's Board of Commissioners. Benefit provisions and contribution requirements are established and may be amended by the Board of Commissioners.

2. Eligibility

The Plan provides eligible participants with retirement benefits as well as disability benefits. All retirement benefits fully vest after ten years of credited service, with partial vesting granted for service less than ten years. Employees who retire at age 65 are entitled to an annual retirement benefit, payable monthly in an amount equal to 2.0% of the highest consecutive five year average monthly earnings in the last ten years of service, with a maximum monthly benefit of 71% of the final average monthly earnings. Employees may retire at age 60 with an unreduced benefit only if they have 25 or more years of service at early retirement. Employees retiring at age 55 with ten years credited service are entitled to receive a reduced monthly retirement benefit.

At October 1, 2006 the Plan Participants consisted of:

Retirees and beneficiaries currently receiving benefits, terminated vested not receiving	
benefits and long term disabled employees	95
Current employees -	
Fully vested	153
Partially vested	82
Total	<u>320</u>

NOTES TO FINANCIAL STATEMENTS

3. Investments

The Authority maintains an investment policy for the Plan which permits 5% to 40% of Pension Trust Fund assets to be invested in high quality fixed income securities, 15% to 50% in equity type securities and 25% to 60% in guaranteed rate of return contracts.

4. Required contributions

The Authority's funding policy provides for annual employer contributions at actuarially determined rates to fund the increase in prior service liabilities on a level percent of payroll over a thirty-year period. Employer contribution rates are determined using the Entry Age actuarial cost method. Employees are not required to contribute to the Plan.

5. Summary of significant accounting policies

a. Basis of accounting

The Plan's financial statements are prepared using the accrual basis of accounting. The Authority's contributions to the Plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. The administrative costs are financed through investment earnings.

b. Method used to value investments

Equity investments and bonds are reported at fair value. GIC investments are valued at estimated fair value. The investments of the Pension Trust Fund are not federally insured.

c. Annual pension cost and net pension obligation

The Authority's annual pension cost and net pension obligation to the Huron-Clinton Metropolitan Authority Employees Retirement Trust for the current year was as follows:

Annual required contribution/pension cost Contribution made	\$ 1,535,961 (1,535,961)		
Increase (decrease) in net pension obligation Net pension obligation, beginning of year	- -		
Net pension obligation, end of year	<u>\$</u>		

NOTES TO FINANCIAL STATEMENTS

The annual required contribution for the current year was determined as part of the October 1, 2005 actuarial valuation using the individual entry age actuarial cost method. Benefits are funded on a level percentage of earnings from each participant's date of participation to assumed retirement date. The effects of plan improvements and changes in assumptions are amortized over 30 years. The actuarial assumptions included (a) 8% investment rate of return on the investment, compounded annually, and (b) projected salary increases of 5% per year compounded annually. There is no assumption for cost of living or inflationary adjustments. Smoothed asset value that spreads the difference between the assumed return and the actual investment return over a five (5) year period was used to determine the actuarial value of assets. The amortization method used is a 30-year, level percent of payroll method where the effect of plan improvements and changes in assumptions are amortized over 30 years on an open end basis. Gains and losses are not separately amortized but reduce or increase the amortization balances and payments.

d. Concentration of risk

The Authority has investments in individual organizations that each represents an amount of 5% or more of total plan net assets. These organizations are as follows:

<u>Organization</u>	Investment Type	Percent		
Lincoln National Life	Immediate Participation Contract	9%		

e. Trend information

Nine-Year Trend Information

	Annual Pension Cost (APC)	Percentage of APC Contributed	Net ension ligation

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

April 27, 2007

To the Board of Commissioners Trustees Huron-Clinton Metropolitan Authority Brighton, Michigan

We have audited the financial statements of the governmental activities and each major fund of the Huron-Clinton Metropolitan Authority (the "Authority"), as of and for the year ended December 31, 2006, which collectively comprise the Authority's basic financial statements and have issued our report thereon dated April 27, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to the management of the Authority in a separate letter dated April 27, 2007.

This report is intended solely for the information and use of management and the board members, and is not intended to be and should not be used by anyone other than these specified parties.

Rehmann Lohan

An Independent Member of Baker Tilly International

April 27, 2007

To the Board of Commissioners Huron-Clinton Metropolitan Authority Brighton, Michigan

We have audited the financial statements of *The Huron-Clinton Metropolitan Authority* for the year ended December 31, 2006, and have issued our report thereon dated April 27, 2007. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility Under Generally Accepted Auditing Standards and OMB Circular A-133

As stated in our engagement letter, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance that the general purpose financial statements are free of material misstatement. Because of the concept of reasonable assurance and because we did not perform a detailed examination of all transactions, there is a risk that material errors, fraud, or other illegal acts may exist and not be detected by us.

In planning and performing our audit, we considered the *Huron-Clinton Metropolitan Authority's* internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting.

As part of obtaining reasonable assurance about whether the *Huron-Clinton Metropolitan Authority's* financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts.

However, providing an opinion on compliance with those provisions was not an objective of our audit. While our audit provides a reasonable basis for our opinion, it does not provide a legal determination on the *Huron-Clinton Metropolitan Authority's* compliance with state and federal requirements.

The Huron-Clinton Metropolitan Authority April 27, 2007 Page 2

Significant Accounting Policies

Management has the responsibility for selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the *Huron-Clinton Metropolitan Authority* are described in Section I of the notes to the financial statements.

There were no transactions entered into by the *Huron-Clinton Metropolitan Authority* during the year that were considered both significant and unusual, and of which, under professional standards, we are required to inform you.

Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements included: life of capital asset's, accrued compensated absences and the actuarially accrued pension obligations.

Management's estimate of the life of capital assets is based upon management experience and state guidelines. The liability for accrued compensated absences is based on a detailed listing of time earned by employees. The estimate for pension obligations is determined using customary assumptions.

Significant Audit Adjustments

For purposes of this letter, professional standards define a significant audit adjustment as a proposed correction of the financial statements that, in our judgment, may not have been detected except through our auditing procedures. These adjustments may include those proposed by us but not recorded by the *Huron-Clinton Metropolitan Authority* that could potentially cause future financial statements to be materially misstated, even though we have concluded that such adjustments are not material to the current financial statements. We proposed no audit adjustments that could, in our judgment, either individually or in the aggregate, have a significant effect on the *Huron-Clinton Metropolitan Authority's* financial reporting process.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of

The Huron-Clinton Metropolitan Authority April 27, 2007 Page 3

an accounting principle to the Authority's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

<u>Issues Discussed Prior to Retention of Independent Auditors</u>

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as *The Huron-Clinton Metropolitan Authority's* auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing our audit.

Management Letter Items

In planning and performing our audit of the financial statements of the *Authority*, for the year ended December 31, 2006, we considered the *Authority's* internal control structure to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure.

However, during our audit, we became aware of matters that are opportunities for either strengthening internal controls, increasing operating efficiency or preparing for upcoming pronouncements. The following memorandum that accompanies this letter summarizes our comments and suggestions concerning those matters. This letter does not affect our report dated April 27, 2007, on the financial statements of the *Authority*.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various *Authority* personnel, and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist the *Authority* in implementing the recommendations.

We would like to thank the staff and management of the *Huron-Clinton Metropolitan Authority* for their assistance and cooperation in completing the audit.

This information is intended solely for the use of the Board of Commissioners and Management of the *Huron-Clinton Metropolitan Authority* and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Rehmann Lohan

Other Postemployment Benefits (GASB 45)

The Governmental Accounting Standards Board (GASB) issued statement number 45 "Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions" in June of 2004.

The Authority will be required to adopt the pronouncement for the plan fiscal year ending September 30, 2008.

The essence of this pronouncement focuses on the recognition of the Authority's liability for other postemployment benefits such as health care and life insurance benefits offered to Authority retirees and their dependents. In addition, the pronouncement requires that a postemployment benefit fund and trust be established to account for contributions made and benefits paid to/from the plan. We congratulate the Authority in establishing the fund and trust in October, 2005

The Authority completed an actuarial valuation on postemployment benefits in October of 2003. The results of the valuation established an annual required contribution of 19.26% of payroll or \$2,564,000 annually with a total liability of \$37,107,325. The Authority currently expends approximately \$1,000,000 on a pay as you go basis annually for these benefits. The Authority will be required to have an actuarial study performed during the 2007 fiscal year of the plan, which will end September 30, 2007. This actuarial valuation will be used to establish the required contributions to the plan during the 2008 fiscal year. The Authority will then be required to have an actuarial valuation performed semi-annually thereafter. Any shortfalls between actual contributions and the actuarial required contribution would be accounted for as a liability on the Authority's Statement of Net Assets.

We are impressed by the Authority's contribution to the plan during the Authority's 2006 fiscal year and would strongly encourage the Authority to consider the continuation of contributing to the plan prior to the required adoption date. The benefit to this is that overall the required contributions will probably be less than one that would need to be established during the 2007 actuarial valuation. In addition, the contribution would have the ability to be invested in securities as established by Public Act 149, which is basically the same as the Authority's pension plan. These investment types typically have the potential for higher earnings than those limited under Public Act 2.

In addition to the funding mechanism for current benefits, the Authority may consider reducing the costs of postemployment benefits or requiring a co-pay policy. Although this may not be practical at this time due to current labor contracts and current retirees, it may require consideration for new hires. Ultimately the goal is to reduce the annually required contribution and the Authority's liability for these benefits.

These examples are not intended to be all inclusive of the possibilities to begin pre-funding the Authority's obligation for postemployment benefits but rather the most common examples that we have seen from other governmental entities.
